

DIVISION

- SINCE PEANO NUMBERS ARE INTEGERS, WE DO INTEGER DIVISION
- DIVISION IS TRICKIER THAN MULTIPLICATION
 - ↳ STILL A REPEATED PROCESS
 - ↳ COUNT THE NUMBER OF REPETITIONS

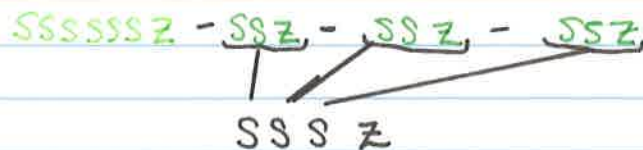

Eg: $7/3 \rightarrow 7-3-3$

$a = \text{SSSSSSZ}$

$b = \text{SSZ}$

(divide a b)

$\text{SSSSSSZ} - \text{SSZ} - \text{SSZ} - \text{SSZ}$

SS SZ
